**RESIGNATION OF HON. J. L. TARTÉ.**

Ottawa, Oct. 21.—Mr. Tarte has resigned and the premier has accepted his resignation. Mr. Wilfrid yesterday received the following letter from Mr. Tarte:

Toronto, Ont., Oct. 20, 1902.

"To the Right Honorable Sir Wilfrid Laurier, Prime Minister, Ottawa.

"My dear Sir Wilfrid,—I feel it is my duty to place my resignation in your hands and to ask you to be good enough to have it accepted by His Excellency the Governor General. In the interview which I had with you, you expressed the opinion that I should not have spoken on the tariff as I have done, that the government had not as yet come to any definite understanding on their fiscal policy for the future, and I shall not discuss with you at the present time the question as to whether I was right or wrong in the course I followed. You are the leader of the government, and your opinion, as far as my attitude is involved, must prevail. You told me that my utterances are causing you trouble. I have to right and no desire to be a source of embarrassment to you or the party with which I have been connected since 1892. My views on the tariff are well known to you. I have on several occasions stated them publicly in your presence, and discussed them often privately with you.

"Entertaining the opinion that the interests of the Canadian people make it our duty to revise the tariff of 1897, with the view of giving a more adequate protection to our industries, to our farming community, and our working men, I cannot possibly remain silent. I prefer my freedom of action and to stand under the circumstances, even to the great honor of being your colleague.

"Before severing my official relations with you, allow me to express my sincerest hope that you soon be restored to your health of former days. You would greatly oblige me by conveying to my colleagues my best wishes for their happiness. My personal relations with most of them have been of a pleasant and cordial nature. I hope they will continue to be the same in the future.

"Believe me, my dear Sir Wilfrid, very sincerely yours,

"(Signed) J. ISRAEL TARTÉ.

The premier wrote a letter of acceptance.

## LOCAL.

**—Train on time.**  
—A new mail-car was attached to last night's train on the C. & E. line.

—W. Clarke has resigned his position as leader of the Edmonton fire brigade band.

—The proceeds of the bazaar at the Presbyterian church last night amounted to about \$130.

—Vernon Barford will furnish music at the hospital ball to be held at Malvern night in Robertson Hall.

—Dave Collins to-day sold out his share in the livery, feed and sale business of Collins & Perras to his partner.

"The Making of Paul," will be the subject of Pastor McDonald's address on Sunday evening at the Baptist church.

—J. Kelly, M. Jordan, J. Thom and H. W. B. Douglas drove out to Skopy Plain on Monday and secured 20 chickens.

—Supt. Niblock, of the C. P. R., came in last night from Calgary in his private coach attached to the regular train, and returned at morning.

—The Bank of Commerce will open for business Monday in their premises in the east half of the new McLeod block. T. M. Turnbull is manager.

—A. A. P. McDowell, of the Cass City, Michigan Enterprise, is in town on a short visit. Mr. McDowell is a brother-in-law of Williamson Bros., of Edmonton.

—The sewer and waterworks trench is covered in as far as Second street and ground is broken to the corner of Fourth. The work is going on rapidly and satisfactorily.

—Norman May, of Carberry, Man., son of Chas. May, of this town, has accepted a position with H. W. B. Douglas, and will arrive Monday evening to commence his new duties.

—The Brackman-Ker Co. are working on the new crop of oats and find them very satisfactory for milling purposes. The Bulletin begs to acknowledge receipt of a sample sack, the quality of which could not be improved upon.

—A car load of grapes from the Niagara district of Ontario arrived on Wednesday. The grapes were on sale in the fruit stores on Thursday at 65c for a ten pound basket. The price is considered very reasonable, especially as the grapes are of splendid quality and come through in fine condition.

—The opening services of the new Methodist church at Fort Saskatchewan will be held on Sunday and Monday, November 9th and 10th. Sermons will be preached by Dr. Woodsworth and T. C. Buchanan. On Monday evening tea will be served at four o'clock. A public meeting will follow the tea.

—Excursions will run hourly from Edmonton station to the junction and return on Saturday (to-morrow) commencing at 1 o'clock sharp. This will give the opportunity of a railway ride to those number who were not able to take advantage of the excursions on the civic holiday. The rates are 25c for adults and 10c for children for the round trip.

—Mrs. W. P. Walker, died at her residence, Namoy avenue, yesterday. She leaves a husband and five small children. The family formerly lived in South Dakota, and moved to a farm near Edmonton. When deceased's health began to fail some months ago her husband decided to move into town in hopes of being able to better attend her in her illness, but was unsuccessful in checking it. The body will be shipped to South Dakota for interment.

—The heavy boiler for the saw mill being established by D. R. Fraser in the lumber woods above the White Mud arrived safely at its destination. The mill will be put in order forthwith and lumber will be sawn during the winter. In the spring it will be rafted down the river to Edmonton. Mr. Fraser considers that this will be more economical than rafting the logs, or taking the chances which accompany running them loose.

## NEW WINDSOR HOTEL.

The new Windsor Hotel, on the corner opposite McDougall & Secord's store, is being rushed to completion. The brickwork is already completed and the roof is being put on. Lathing is in progress and the electric wires are also being put in position. It is expected that the hotel will be ready for opening by New Year's.

The building is 100 feet long by 50 feet frontage, being 3 stories high, with full basement. The iron work is of 50 feet and 35 feet, beyond that the width is 35 feet. It is built of solid brick, with pressed brick facings. The roof will be gabled iron. A 2 storey verandah will extend the entire length of the east and north sides. Steam heating and electric lights will be used throughout.

The basement is divided into a root cellar 20x35 feet, laundry girls' room 18x22 feet, bathrooms 16x20 feet, boiler room with coal bin and laundry's room, 35x15 feet, and liquor cellar 35x20 feet. Sewer pipes are laid to connect with the main on Jasper avenue.

The ground floor contains a kitchen 16x35 feet, pantry 5x15 feet, refrigerator 5x10 feet, dining room 30x35 feet, 2 private rooms each 12x14 feet, barber shop 18x24 feet, waiting room 30x35 feet, bar-room 18x35 feet, writing room and office. There is a front entrance on Jasper avenue and a corner entrance on Jasper avenue and First street.

The second story contains 19 bedrooms each 9x12 feet, sitting room 21x12-12 feet, bath rooms, and hall with front and side entrance.

The third story contains 21 bedrooms each 9x12 feet, bath rooms, and hall. To the rear of the hotel is a building of 7 sample rooms, each 18x22 feet.

The hotel will be equipped in modern style. The furniture will be solid oak with iron bedsteads.

P. Anderson & Co. have the contract for the brickwork, Pomerleau the woodwork and Corrieu & Lockyer the steam fitting and roof work.

The hotel is being built by Laurence & Corrieu, of the Victoria, who will remove to the Windsor as soon as completed.

## STACK BURNED.

Mr. Mellick, of Belmont, who owns the Price farm at Belmont lost a stack of wheat by fire on Wednesday afternoon. J. Whalen's traction thrasher was at work on a nest of four stacks. Two of the four stacks were nearly finished when the automatic stacker was seen to be on fire, near the ground. The fire is supposed to have started from a hot box. In a moment the fire was thrown on the straw stack. Of course steam was up on the engine, and it was hooked to the separator. The separator was pulled away quickly from the stacks and the stacker was detached so that the separator and engine were rendered safe. The engine was then backed up to one of the un-threshed stacks, a long rope circled around it, pieces of cordwood were stuck in between the rope and the stack, and the engine started up. The stack was drawn bodily away to a safe distance from the fire. The engine was then brought back for the remaining stack, but it had already taken fire and could not be saved. Mr. Mellick's loss is estimated at 250 bushels of unthreshed wheat, and Mr. Whalen loses his stacker, which although not entirely destroyed has been rendered useless. Fortunately there was little wind.

## EDMONTON GOVERNMENT CREAMERY.

The government creamery, south of the bridge, ceased operations for the season on the 18th inst. The output was not quite as large as expected on account of the wet weather and bad roads in the spring, which prevented the cream from being brought in.

The creamery, under the management of C. Nairn, commenced work for the season the last week in May, but during May and June very little was accomplished on account of the wet. July, August and September were good months but a falling off began in October until operations ceased on the 18th.

In conjunction with the Edmonton creamery, a smaller one at Beaver Hills was conducted by W. J. Ireland, who formerly operated a creamery in Detroit. This also has closed for the season and Mr. Ireland left last week to take charge of a creamery in New York state.

The Edmonton creamery gathers the cream from its patrons by two semi-weekly delivery expresses, one making a route through the Poplar lake and Sturgeon districts and the other through the Clover Bar district. At Beaver Hills the patrons deliver the cream direct to the creamery. The cost of running the deliveries is shared by the patrons.

The cream, as it is received, is measured in cans 12 inches in diameter, 1 inch depth in a can making 4 lbs. of cream or 2 1/2 inches 1 gallon. It is then tested in tubes 1-2 inch in diameter and 12 inches long. Each tube is half filled and numbered. The tubes are then corked and placed horizontally in cases in a machine driven by steam which has a rapid backward and forward motion and churns the cream in the tubes. After churning the tubes are placed in upright position and the fat or butter rises to the top and is measured. One inch of butter in a tube indicates that one inch of cream in the measuring can will yield one pound of butter. On this basis of reckoning it can readily be estimated what amount of butter each patron's cream will yield. On a churning yielding 500 lbs. of butter the operator can estimate beforehand to within 2 lbs. of what the yield will be.

The amount of cream received this season (including the Beaver Hills branch) was 13011.3 inches. This yielded 14217.2 lbs. of butter.

The butter is sold locally; and is shipped to British Columbia and the old country. The amount sold locally was 41692 lbs., the average price received being 22 cents per lb. For local trade the butter is put up in pound prints. It is sold wholesale to the merchants of Edmonton and Strathcona, or retailed at the creamery.

The bulk of the output was shipped to Calgary cold storage, 10,048 lbs. in all. About half the season's output went to the old country. For shipment it is packed in bulk, without color and medium salt, in boxes containing 56 lbs. each. For British Columbia markets it is also packed in bulk, but in smaller boxes, containing 14 and 28 lbs. each. The returns of these shipments are not yet known.

The business of the creamery depends largely on the state of the roads. Outside the difficulty experienced in this line in the early part of the season the work was highly satisfactory. The butter made is finding a ready market wherever it is shipped.

## THE CIVIC HOLIDAY.

The civic holiday proclaimed for Wednesday to signalize the opening of railway communication between Edmonton and the outside world, was generally observed. Schools, banks and business places generally were closed. Although the notice was short it became generally known that excursions would be run from Edmonton to the junction and a large proportion of the citizens took advantage of the opportunity of securing a ride on the cars. One of the flat cars was fitted up with seats so as to give a good view of the pretty scenery along the Mill Creek.

At ten o'clock the first train pulled out, Manager Pace in charge and made a quick trip to the junction and return, a total distance of eight miles. Fare for the round trip was 25c. Other trains ran at 11, 12, 3, 4 and 5, the five fire brigade band being on board on several trips. The coach and flat car were crowded on all the afternoon trips and the roof of the box car was largely taken advantage of. The last return trip was somewhat delayed by an accident to the locomotive so that the station was not reached until about 6:30. Otherwise the proceedings of the day were without a hitch. The weather was very fine but with a heavy haze.

## LOCAL

In the challenge match between Spratt and Moller at the rifle ranges on Tuesday, Spratt won with a score of 122 to 111.

1—A system of hot water heating is being installed in the bank of Commerce premises, which has delayed the opening for a few days.

—Prince Albert Times, October 18th: We had our first heavy frost on Sunday night. Everything that has not been frozen before was cut to the ground.

—Yeko Proskensak was fined 25¢ and costs or 20 days, at the police court on Wednesday, before John P. Forbes, J. P., on a charge of disorderly conduct on the street.

—The Eastern Township bank has purchased a building and will open business in Winnipeg. It was reported that this bank intended opening at Edmonton also.

—The western business of the Western Assurance Co. has been transferred to the British America Assurance Co. Caruthers, Brock, Johnston and Day are the general agents, Winnipeg.

—Alton's bridge gang have completed a bridge for the Northwest government across Old Man's Creek on the road allowance a mile east of Horton's store, in the Clover Bar settlement.

—At the police barracks on Wednesday, Frederick Norris was committed for trial by W. Edmiston, J. P., on a charge of criminally assaulting the 15-year old daughter of Sim Renuis, on the trail near Beaumont, on the 16th inst.

—The frame work of the new curling rink is completed and it is being rapidly boarded in. The large arch bents for the hockey rink are being raised to-day. The work is progressing favorably and the rinks will be in shape in good time.

Calgary Alberta: The medical authorities say that the city of Calgary was never in better health. There are very few cases of scarlet fever and that pest, which was a bit serious earlier in the season, has been successfully overcome.

—The Vancouver Province says that a Prof. Callie this season explored and measured the height of Mounts Brown and Hooker, which lie on each side of the Whirlpool pass travelled by the H. B. Co. transcontinental transport in the early days. He found them only about 10,000 feet in height.

—The Winton Echo, publishes a report of a complimentary dinner to Andrew B. Agar, by the people of the village of Lion's Head, Bruce Peninsula, Ont., on the occasion of his removal with his family from that place to Edmonton. An address was read and a gold headed cane presented to Mr. Agar.

—Seven ears of fat and stocker cattle, ones, twos, and threes, were shipped to Geo. Lane, of High River on Wednesday morning. The cattle were purchased by D. C. Robertson, who says they are a very fine lot. The shipment was made by Giles & Son. There is a brisk demand for cattle of the right stamp at good prices.

Free Press: Portage la Prairie, Oct. 17.—Rev. J. Douglas, the Presbyterian pastor of West Prospect church, has resigned his charge, and will leave shortly to take up his residence at Edmonton, Alberta. The Portage presbytery has accepted the resignation, and appointed Rev. W. R. Ross, of High Bluff, as moderator.

—The Innisfail Free Lance registers the following kick against the freight service on the C. & E.: "The freight service on the C. & E. is pretty nearly on a par with the miserable mail facilities we have had to put up with all along. Hardly a day passes that merchants and others are not complaining of goods failing to come on time. No wonder there is a growl when it frequently takes over two weeks for a parcel to come from Winnipeg to Innisfail 'by fast freight.'"

—A. C. Rutherford, M. L. A., and A. Driscoll, C. E., returned on Tuesday from a tour of inspection of the base line road through the Beaver Hills. They went by way of the south end of Beaver lake to Vegreville, then north to Star and home by way of Fort Saskatchewan. They found the base line road attracting a great deal of travel and consider that it can be made the leading highway from Strathcona and Edmonton to the Beaver lake and Vermilion country. An expenditure of \$1,500 would make good the soft places, and an appropriation another year would cut down the hills. Everything has a flourishing appearance in the Vermilion district, Beaver lake and Beaver river are still high, as the streams from the hills are all full. New bridges are being arranged for on Hastings Creek and Katchemut Creek.

## THE MERCHANTS' FOR CALGARY.

Calgary Alberta: It is now almost certain that the Merchants' Bank of Canada will locate in Calgary. It is understood that permanent quarters have been secured in the Alberta block which will be ready for occupation in a very short time. When this bank settles here there will be branches of six banks in Calgary, and it is rumored that a Seventh, the Dominion Bank, may start a branch in the city.

## It Changes Things.

Baltimore American.  
He used to go in sackless guise, and  
praise the workingman;  
He weep about poor labor's woes, and  
for the future plan;  
He'd own the country soon would he  
in awful ruin plied,  
And that the prospect was so bad it  
simply drove him wild.  
But now he laughs at all those fears;  
has silk hose for his feet—  
You see, he saw the way, to turn  
A little.

Deal in wheat.  
He used to go the country round, and  
about predictions dire;  
As Joseph did at Nineveh, he warned of  
coming fire.  
He swore the land was heading in a  
most destructive path,  
And sprained his epiglottis with his  
warning cry of wrath,  
But now no more his prophecies of  
trouble seethe and boil—  
The world is running very well—  
He turned a  
Trick in oil.

It is the way with all of us, The world  
is very dark.  
When some one else has found the  
trick that makes the cheering  
spark;  
When some one else is riding, where  
we simply have to walk,  
It causes quite a lot of this woe-and-  
destruction talk;  
But all the way is rosy, and the combs  
with honey drip,  
When some one else shows us how  
To profit  
By a tip.

## New Banks Branches

Winnipeg Tribune.  
If there is one thing more than an-  
other which is a true indicator of the  
prosperity of a country it is the growth  
of its financial institutions, the places  
where the people's money is handled  
and stored, and through which the cir-  
culating medium is distributed. Cana-  
dian chartered banks are grounded on  
sound business principles that any  
extension in their scope must mark real  
development in the financial transac-  
tions of the country, and perhaps never  
before in the history of Canada has there  
been such an outbursting in the bank-  
ing business as during this year to date.

It is quite a few years ago, of course,  
since the financiers of the east decided  
that Winnipeg was a safe place for the  
establishment of branches of their in-  
stitutions, but for a good many seasons  
the progress further west was never  
thought of, the directors considering  
that a financial depot so far west as  
Winnipeg was considerable of an ex-  
periment, and that a branch establish-  
ment still nearer the coast would mean  
sinking but failure from lack of busi-  
ness.

The steady growth and progress of  
the country, however, has worked a big  
change in the attitude of the financial  
men, and during the past seasons the  
various Canadian banks which are es-  
tablished in Winnipeg have been push-  
ing their business through the west,  
and as a result many towns that have  
waited long and patiently have been at  
last favored with a bank, which will  
facilitate financial transactions in con-  
nection with the great grain growing  
industry, which is yearly enriching the  
growing population of this part of the  
Dominion.

This year has been especially prolific  
in the opening of new branches. There  
have been 34 branches established be-  
tween Winnipeg and the coast and are  
all reported to be fulfilling the expecta-  
tions of the head offices. In the organi-  
zation of new offices the Union Bank  
has taken the lead, with 13 new  
branches.

The Canadian Bank of Commerce  
comes next with 11 new offices, while 5  
others get in line with two or three  
new branches each.

Following are the towns in which  
branches have been opened and the  
names of the managers:

Union Bank.  
Altona, Man. J. Siegal, Mgr.  
Birtle, J. C. Dudley.  
Rapid City, S. D. Hopper.  
Russell, F. H. Mayhew.  
Cardston, Alta. A. C. Gigot.

Okotoks, H. Dunsford.  
Raymond, C. D. Simpson.  
Qu'Appelle, C. S. Pickock.  
Sintulata, F. E. Hanson.  
Wapella, E. Thornton.  
Wolsley, J. G. Vio.

Canadian Bank of Commerce.  
Medicine Hat, F. L. Crawford.  
Calgary, C. W. Rowley.  
Edmonton, T. M. Turnbull.  
Carman, E. C. Cumplin.  
Neepawa, G. M. Gibbs.  
Moosemin, E. M. Saunders.  
Branches have been established at  
Treherne, Elgin, Dauphin, Grand View  
and Swan River to which no managers  
have yet been appointed.

Bank of Hamilton.  
Roland, W. Loree.  
Minnedosa, W. H. Carroll, acting  
manager.

Saskatoon, W. Russell, acting man-  
ager.  
Imperial Bank.  
Wetaskiwin, Alta. H. H. Hogan.  
Victoria, B. C. J. S. Gibb.

Dominion Bank.  
Brandon, E. C. Bowker.  
Boissevain, F. W. Young.  
Bank of Ottawa.  
Prince Albert, manager not yet ap-  
pointed.  
Emerson, H. P. Pennock, acting man-  
ager.  
Raymond, F. D. Anderson, acting  
manager.

Merchants Bank.

Alberta; Whitewood and Carleton Place,  
Ontario; Oak Lake, and Morris, Mani-  
toba.

## FORT SASKATCHEWAN TRAIL.

Editor Bulletin.

Sir.—The state of this road in places  
within six miles of town is disgraceful  
and sadly needing repairing, before the  
weather freezes up. There is one hole  
by Mr. Coleman's which has been in a  
bad state for six months, for want of a  
curb, and two other places (another  
close to Mr. Coleman's, the other by  
Grierson's pasture fence) both with  
broken culverts, and holes big enough  
to break a horse's leg. A day or two's  
work is all that is required to reno-  
vate these, and surely the road over-  
seer for this district could get enough  
help from men who travel this road to  
do the necessary work in order to put  
these bad places in a safe condition.  
Many I am sure would be only too glad  
if called upon to turn out and give him  
the necessary help. I, for one, although  
living in another district would be  
only too glad to do so,  
whenever he appoints a day for the  
work. Thanking you for your valu-  
able space.

I am, yours truly,  
W. J. BELFRAGE,  
Poplar Lake.

Oct. 19th, 1902.

## SETTLERS FOR THE WEST

Rev. Father Sinnett returned home  
from Ridgeway, Ont., the home of his  
childhood, and from that region in-  
duced many young men to go to the  
west—chiefly to Edmonton and Saskat-  
chewan valley, who otherwise were  
going to the U. S. to try their fortune  
in the cities. Those who went were  
from Ridgeway, Chatham and Tames-  
ville, and the rev. gentleman expects  
that many more will follow from those  
districts. In his estimation there is no  
place like the west.—Ottawa Valley  
Advocate.

C. N. R. Changes Superintendents.  
Tribune: An official announcement  
in connection with the changes in the  
C. N. R. staff was made to-day.

Mr. Hugh Sutherland, executive  
agent of the C. N. R., stated that Mr.  
E. A. James was to assume the posi-  
tion of general superintendent of the  
C. N. R. system in succession to  
Mr. D. B. Hanna. Mr. Sutherland  
could not say the exact time when  
the change would be made, as that  
depended on Mr. James, who would  
require to give due notice to his  
company. Mr. Hanna will not entire-  
ly sever connection with Winnipeg,  
but his headquarters will be in  
Toronto. His duties, however, will  
bring him here occasionally.

## Sheep Destroy Weeds.

"Of the 600 weeds and grasses  
growing in the Northwest," writes  
Prof. Thos. Shaw, "it is estimated by  
those that have made a study of it,  
that sheep will eat 576 of them, while  
horses consume but 82 and cattle only  
56. The fact is, sheep prefer many  
kinds of weeds to grasses, and weedy  
fields and horse pastures are improv-  
ed by turning a small flock of sheep in  
to them. When sheep devour the  
weeds they do not charge anything for  
the work. On the other hand they  
pay the farmer for the privilege of  
pulling the weeds. They turn the  
weeds into mutton, fresh, juicy and  
crisp. A sheep's stomach is the most  
perfect receptacle that was ever made  
for weeds. It is sure death to every  
form of weed life. No weed seeds re-  
tain the power of resurrection after  
having been buried in that living sepul-  
cher, the stomach of a sheep."

## OLDS

Oracle, Oct. 17.  
It is reported that a prairie fire is  
raging in the Knee Hill district. A  
large area of grass and a quantity of  
hay have been burned.

A prairie fire started south of town  
on Tuesday afternoon and Constable  
Peters turned out the town to fight it.  
It was soon put out and little damage  
was done. Two parties, however,  
Messrs. J. Dent and R. W. Logan,  
refused to "turn out" and the result  
was that they were summoned to appear.

An acetylene gas plant is being  
installed in the Farmer's Exchange  
store.

Mr. Pierson shipped 1800 lbs. of cheese  
on Tuesday from the Bowden cheese  
factory.

## PONORA

Herald, Oct. 17.

Arnold & Christie have in their  
office a purple top turnip weighing  
fifteen pounds. It was grown by  
Wilbur Robinson.

J. H. Myer has the lumber on the  
ground and will soon begin the erection  
of a sale stable on north Railway St.  
Little Mary Cox presented the writer  
with a plump ripe strawberry which  
she picked on the prairie Saturday. Not  
every little girl can go strawberrying  
with as good success even in much more  
southern climes than ours.

Mrs. L. Pilowick furnished us a fine  
bouquet of pansies gathered from her  
garden on October 11. The more hardy  
varieties of flowers are yet in full  
bloom in all the gardens.

W. N. Trimble, government land  
guide, returned Tuesday from a trip to  
the Willow Creek country with a party  
of Oklahoma land seekers, all of whom  
located. They are Messrs. Parsons,  
Hepe and Viers.

A business change took place in the  
village this week, whereby R. E. Wal-  
ker withdrew from the firm of Fairley &  
Walker, bankers. He left yesterday  
with his wife for Edmonton.

Corporal Rubbra, of Red Deer, came  
up on Tuesday and arrested Ernest  
Cashel on the charge of forging checks  
in Calgary. The lad was taken to Cal-  
gary Wednesday for trial in custody of  
Chief English. Later reports are to  
the effect that the prisoner escaped by  
jumping from the train near Red Deer  
and is still at large.

## MAIL CONTRACT.

SEALED TENDERS addressed to the  
Postmaster General, will be received at  
Ottawa until noon, on Friday, the 21st  
of November next, for the conveyance of  
November 1st mails, on a proposed Con-  
tract for four years, fortnightly each  
way, between Lac Ste. Anne (about Lot  
No. 18, Township 54, Range 3 W. of  
5th Meridian) and Stony Plain, via  
Wahoo (about Section 2, Township 52,  
Range 3 W. of 5th Meridian) from the  
1st January next.

Printed notices containing further  
information as to conditions of proposed  
contract may be seen and blank  
forms of Tender may be obtained at

## LAND HOW TO ACQUIRE THEM

Latest rules and regulations issued by the Dominion government.

Owing to the great interest now taken in coal lands and large deposits in Northern Alberta in the vicinity of Edmonton, more especially along the North Saskatchewan river, in the Conjur Creek and Rabbit Hills districts, Sturgeon River, Belmont, Clover Bar and at Red Deer, the Bulletin gives below the latest rules and regulations showing how they may be acquired.

### Coal on School Lands.

1. Leases of school lands for coal mining purposes shall be for a period not exceeding 20 years and shall only be granted to applicants in the order of their applications, who have satisfied the minister of the interior of their means and ability to work efficiently the mines applied for.
2. The lessee shall pay a ground rent for the land leased of thirty cents per acre, such rental to be half yearly in advance.
3. The lessee shall in addition to the ground rent pay a royalty of ten cents per ton on all coal taken out of the mine, and shall furnish to the minister of interior quarterly returns, made under oath, on such form as the minister of interior shall prescribe, showing the quantity of coal taken out, the royalty thereon to be paid at the time of making such return.
4. The area of school land leased for coal mining purposes to any one person shall not be less than 160 acres nor more than 640 acres.
5. The boundaries beneath the surface of such mining locations shall be the vertical plane or planes or lines within which the surface boundaries lie.
6. Failure to commence active operations within one year and to work the mine within two years after the commencement of the term of the lease or to pay the ground rent or royalty as before provided shall subject the lessee to the forfeiture of its lease and resumption of the land by the crown.

### Coal on Dominion Lands.

1. Lands containing anthracite coal may be sold at an upset price of \$2000 per acre, and coal other than anthracite at an upset price of \$1000 per acre or may be sold by public competition if the minister of the interior shall so decide. Payment for the land in cash or scrip shall be made when the application is granted or payment may be made of one quarter of the purchase price cash and the balance in three equal annual instalments with interest at the rate of five per cent per annum upon the unpaid balance. Scrip however, cannot be accepted unless payment is made in full at the time of the sale. If payment is not made accordingly the right to purchase will be cancelled.
2. In addition to the above a royalty at the rate of ten cents per ton of 2000 pounds will be levied and collected on the output of the mine, and it will be necessary for the person operating a mine to furnish the agent of Dominion Lands with sworn returns monthly, or at such times as the Minister of the Interior may direct, accounting for the full quantity of coal mined, and pay the royalty thereon at the above rate.
3. Default in payment of such royalty, if continued for ten days after notice has been posted at the mine in respect of which it is demanded, or in the vicinity of such mine, by the agent of Dominion Lands or by his direction, shall be followed by cancellation of the sale. In case of such cancellation no payments which have been made on account of the purchase will be refunded.
4. The patent which may be issued for coal lands will be made subject to the payment of the above royalty and provision will be made thereon that the Minister of the Interior may declare the patent to be null and void for default in the payment of the royalty on the coal mined.
5. Any attempt to defraud the Crown by withholding any part of the revenue thus provided for, by making false statements of the amount taken out, shall be punished by cancellation of the sale of the land in respect of which fraud or false statements have been committed or made, and the Minister of the Interior may, for the same cause declare the patent which may have been issued for the land null and void. In respect to the facts as to such fraud or false statements or non-payment of royalty, the decision of the Minister of the Interior shall be final.
6. Not more than three hundred and twenty acres shall be sold to one applicant.
7. When there is more than one applicant for the same coal location, the Minister of the Interior may, invite competition between the several applicants, or offer the land for sale at public competition by tender or by auction, as he may think expedient, at the upset price of coal lands.
8. The boundaries beneath the surface of coal mining locations shall be the vertical planes or lines within which their surface boundaries lie.
9. A fee of \$500 shall accompany each application to purchase, which will be applied on account of payment for the land if the sale is carried out, and will be refunded if the land applied for is not available, but not otherwise.

Lands patented or entered on, within the coal mining rights have been reserved.

9. (a) Any person or persons desirous of obtaining permission to prospect for

minerals on lands that have been patented or entered on and on which the mining rights have been reserved, shall make application therefor to the Minister of the Interior.

(b) Such application shall be in writing, defining clearly the area applied for, which area must not exceed 320 acres.

(c) If the Minister of the Interior sees no objection to the application being granted, the applicant will upon payment of a fee of \$1000 be given permission to prospect upon furnishing the Minister with proof that he has complied with the provisions of the following subsection.

(d) The applicant shall enter into a bond, with two sureties to the satisfaction of the Department, to the effect that he will reimburse the owner or occupant of the soil for damages that may be done to his lands.

(e) If the proprietor of lands to be entered upon shall seek damages, he shall, before the end of two months after the expiration of the permission given, make his claim in writing against the prospecter, detailing the particulars and amount of claim; and if the claim is not adjusted by agreement between the parties within one month after notice thereof as aforesaid, it shall be settled by arbitration in the manner prescribed in sections 13 and 14 of these regulations.

10. No permission to prospect shall authorize entry upon any buildings or the curtilage appertaining to any house, store, barn or other ground reserved for growing crops, and inclosed, except with the consent of the occupier or permission from the minister of the interior upon special application setting forth the circumstances under which the same is applied for, and on such terms as the case may require.

11. If, at the expiration of the period for which permission has been given to prospect on lands, it be desired to acquire the mining rights thereunder, they will be sold at the rate and on the terms prescribed by the mining regulations, less the price ruling for surface rights in the class in which the lands may be situated.

12. If the occupier of the lands has not received a patent therefor, the purchase money of the surface rights shall be paid to the crown, and a patent of the surface rights will issue to the party who acquired the mining rights. The money so collected will either be refunded to the occupier of the land, when he is entitled to a patent therefor, or will be credited to him on account of payment for land.

Leases on Dominion land of coal areas \$5 per acre per year, and ten cents per ton royalty on all coal mined.

### The Canadian Northern.

Battleford Herald, October 8.—M.H. Macleod, chief engineer of the Canadian Northern railway, arrived on Saturday evening, having travelled over the surveyed route on the south side of the river from Edmonton. Things are booming in the west far as surveys go in the far east—the Grand View section—there is some activity, it being intended to let another piece of grading this fall. Here, however, where we are mostly interested the future is a sealed book for the present, though prospects are that we shall soon be allowed to peep into its pages.

Mr. Macleod gave the impression that the two crossings of the Saskatchewan are necessary because of the impossibility of getting up from Saskatoon south of the Saskatchewan. This idea of difficulty is based upon hearsay, because none of the officials of the Canadian Northern have ever gone over it.

Mr. Macleod has now gone down to see for himself, and if he finds the route practicable and can get a good way into the town the company will adopt it and save the construction of two costly bridges.

On the points raised here there would seem to be any doubt, for in none of the numerous surveys made during the past twenty-five years has it ever been hinted there were any grave engineering difficulties in the way. The result of the present examination of the route will be awaited with anxiety, for it will have a lasting effect on the interests of the town.

But if the company decide to come up on the north side Mr. Macleod says they will pass close to the river and put a station immediately opposite the town, and without fixing a date said the road would be here sooner than most people expected it.

### Sir John Bourinot Dead.

Ottawa, Oct. 13.—Sir John Bourinot, clerk of the House of Commons, died at his residence, on Cooper St. at 10 o'clock to-night, after a long illness.

Sir John George Bourinot, C. M. G., LL. D., D. C. L., Litt. D., was the eldest son of the late Hon. J. Bourinot, senator, was of Jersey island descent and was born at Sidney, Cape Breton. In 1857 he entered under the tutelage of the Rev. W. Y. Porter, at Trinity college, Toronto, where he took high scholarships.

He was subsequently connected with the newspaper press of Canada as parliamentary reporter and editor, and in 1860 established the Halifax Reporter, being its chief editor for years. In 1868 he was appointed to the senate staff. In 1873 he became second assistant of the House of Commons, and in 1879 he was made first assistant clerk. In 1886, at Queen's university, Kingston, he received his honorary degree of LL. D., and following this he was made a D. C. L. at Trinity university, Toronto in 1888. He lectured before Harvard, Trinity and other universities.

In 1882 he was nominated honorary secretary of the Royal Society of Canada, by Lord Lorne, being re-elected secretary every year up to his death. His literary ability was also displayed in his works on "Parliamentary Procedure," "Federal Government in Canada," "How Canada is Governed," and many other works on constitutional and historical subjects.

He contributed largely to John Hopkins university political studies, the Quarterly Review, Blackwood, the Scottish Review, Magazine of American History and other English and American periodicals.

### Last Year's Crop.

Commercial: Inspector Horn has issued a statement showing the shipments of grain and its destination from Fort William and Port Arthur for the crop of 1901, from Sept. 1, 1901, to Aug. 31, 1902. The statement shows a total of 29,754,574 bushels of wheat shipped between those months, 1,065,555 of oats, 52,185 of barley, 10,726 bushels of flax. This gives a total of 30,933,940 bushels.

### A Western Railway.

Vancouver, Oct. 10.—In a speech before the liberal association last night, Hon. A. G. Blair, minister of railways, stated that unmistakable evidence would shortly be given by the government of its interest in the west by establishing a railway.

## The Alberta Land Company

Has 20,000 acres of as fine land as can be selected in Beaver Lake, Vermillion and Birch Lake country.

These lands are adapted to both raising grain and stock. There are three lines of proposed Railroads running through this part of the country. These lands can never be bought cheaper than now. We are selling every day and they are not going to last long. Improve the opportunity and place your money where you are sure of securing a good profit by the investment.

Many invest in Mining, some in Oil, some in Bonds; only a few reach the goal; the rest find their hard earned money gone with only a piece of nice paper to tell the story. Why not buy a piece of land one-half mile [ ] to look at and see it increase from year to year in value until it makes you and yours a nice little fortune? It will surely come. It is only a question of time.

We solicit your trade. Call or write and get maps and information of these cheap lands.

## LEUC.

Leduc is receiving a fair share of the late fall weather and general prosperity. Business and building are still on the increase in town and new settlers are continually arriving to fill up the surrounding country.

R. T. Telford has purchased an eight horse power gas engine to run the machinery in his new planing mill. Good work is being done in planing and turning. Window sashes and doors are also manufactured. The season's sale of native and British Columbia lumber has been the largest yet.

The Leduc Milling Co. commenced running on Tuesday. They have a little old wheat left over and are paying 53 cents for new wheat, which is a splendid sample. As yet very little has come in. A new elevator 44x32 feet, capacity 40,000 bushels, has just been completed. It is built to the south of the mill, with a driveway between and a flour store room over the driveway.

Very few oats are offering as yet. The Brockman-Ker Co. are paying 20 cents for feed oats and 22 cents for milling quality.

The stone foundation for Wade's pork packing building is completed. The size is 32x96 feet. A full basement is excavated under 60 feet of the building. The hot water tank and furnace are in position.

E. Kirkpatrick has built an addition to the south of the Leland Hotel. It is a 2 storey 40x64 feet. The opening will be celebrated by a dance and supper on Thursday evening.

H. H. Humber, jeweler and optician, has opened a shop in W. W. Alton's old stand. His stock arrived on Tuesday and is being opened out this week. E. O'Neill has opened a livery and feed stable west of the Waldorf Hotel, in a building formerly used as a warehouse.

J. Harris, of Red Deer, arrived to buy grain at the Calgary Milling Co's elevator, and has taken up his residence in the house lately vacated by Rev. Mr. Scott.

The Ladies' Aid of the Methodist church will hold a Thanksgiving entertainment and supper in the Forester's Hall Wednesday evening.

The lake is dry on the west side of the railway, the first time for four years.

The trails are dry and in good condition.

Chickens and partridge are fairly plentiful.

Musk rats are very plentiful in the lake.

The look of the village has been greatly improved by a liberal use of paint on many buildings.

Threshing was rather late starting this year, but is now fairly under way. The yield will not be as heavy as last year, but the sample is excellent. The threshers at work are: McEachren & Klein, The Clearwater Co., J. Hammer, Bolduc Bros., MacDonald, of Stony Plain, David Fraser, Swerdger and a Calmer Threshing Co.

C. Fontaine has sold out his general store business to J. J. Muggan, of Dakota, who will take possession in about a month.

Three new settlers from Minnesota, arrived Monday with 2 cars of stock and effects.

The full list of this year's building operations includes:

George Liggins, residence.  
Mr. Goetz, residence.  
Alex. Dush, residence lately sold to Jas. McKay.

Robert Kennedy, residence.  
Dr. W. W. Alton, V. S., residence.

Jas. H. Hill, residence.  
J. L. Kirkpatrick, residence.

B. Horspool, residence.  
W. A. Fife, residence.

Fred Kirkpatrick, residence.  
Rev. J. Scott, Methodist parsonage.

Rev. Mr. McDonald, Baptist church.  
Rev. McDonald, residence attached to church.

Victor McDonald, stable.  
Victor Gravelle, residence.

Thomas Barrett, residence.  
J. B. Holden, addition to house and a stable.

M. Lubert, residence.  
Steven Ecker, residence.

Paul Terriault, residence.  
Mr. Keniskowsky, residence.

T. G. Glenville & Co., addition to general store two storeys with basement.  
J. L. Johnston, addition to butcher shop.

E. O'Neill, large storage building converted into livery and feed stable.  
C. Fontaine, general store.

F. J. McRae, carpenter shop and residence.  
M. Petriet, sewing machine office and residence.

Leduc Milling Co., with flour and grain mill, elevator in connection.  
R. T. Telford, machine and planing plant.

David Wade, pork packing establishment, two storeys and basement.  
Leland Hotel, E. Kirkpatrick, proprietor, large two storey addition to hotel.

J. L. Johnston, slaughter house.  
Ed. Southwick, addition to livery stable.

Sad Shooting Accident.  
Dauphin, Man., Oct. 20.—A sad shooting accident occurred at Fishing River, 20 miles north of Dauphin, on Friday evening last. A Galician woman named Stefania, was shot in the head with a rifle ball in mistake for a deer by John H. Richardson, a section man. The unfortunate woman leaves a family of children. A coroner's inquest was held and Richardson acquitted, the shooting being found accidental.

## VERMILION, PEACE RIVER

Crops have been splendid. All wheat will grade No. 1 hard and is now being ground by the H. B. Co's roller mill.

Grain cutting began Aug. 4th, and was all finished, with a few exceptions, in the same month.

As I write a good portion of fall plowing is done and some more breaking. As now there is a first class mill here people have inducements to go more extensively into raising grain.

Last night was the first frost this summer and there was very thin ice on water in vessels standing outside at night.

Our Indian summer has just commenced after a slight fall of snow, which thawed as fast as it fell, but nothing like your Edmonton furies, Sept. 20, '02.

## The Doukhobors.

Winnipeg, Oct. 16.—Another sale of live stock of the fanatical Doukhobors, by the Dominion Government Immigration agents is advertised for October 22nd. Close on a hundred head will be sold. From this it is the opinion of many that the Russians have not shaken off their religious craze. An unconfirmed report has reached here from their settlement that hundreds of the Doukhobors will leave Canada for some milder climate as soon as they can. They will probably head south for the United States.

## For Sale.

The following is being offered for sale:

## THE MAN FROM GLENGARRY

We have just got in 100 copies of this popular book.

See our window display to-night.

Our price is the publisher's price, \$1.25.

The Literary Digest speaks as follows about the "Man from Glengarry"

"The opening of the story is Homeric and of fine quality. There is nothing in this book comparable to the fiction."

They are spiritual and physical; and if the former are closer to Mr. Douglas's heart the latter are pictured by his pen with a more passionate intensity. . . . The life in the woods of these shantymen affords the most delectable reading. . . . Mrs. Murray, an admirable figure, undoubtedly has her prototype in the author's mother Mary Robertson Gordon taught philosophy at Mount Holyoke when she was twenty, and declined the princely proposal later to marry a young Scotch doctor, and retired with him to the wild isolation of the backwoods."

## THE RAILWAY.

The long expected foot of the locomotive was heard in the historic town of Edmonton for the first time on Monday afternoon, October 20th. The Canadian Northern train, which was shipped from Winnipeg as soon as the junction with the C. & E. track was made, arrived at Strathcona station on Sunday night, as dead freight, consisted of C. N. R. engine No. 26, coach No. 1, a box car and two flat cars. On Monday morning it was taken over by Manager Pace, the locomotive was fired up, and at 3 p.m. the train left Strathcona station on its first trip to Edmonton, crossing the Saskatchewan bridge at 3:45.

Never was there an event so long expected, so long and earnestly worked for, and so impatiently awaited, which took place with less ostentation than the arrival of the first train in Edmonton. There is no disguising the fact that its arrival was looked upon by the people as an event of the first importance in the history of the place. It was that which visibly and actually connected the historic town on the north bank of the Saskatchewan with the busy modern world. It was the climax and fruition of strenuous exertions and untold hopes and disappointments which had lasted for half a life time. It was for this that men drove hither skelter across the chert and miles of prairie from Winnipeg in 1881. It was for this that the claim jumping troubles of the following winter took place. It was for this that the land office riots occurred, and it was for this that less than two weeks before a body of citizens had taken upon themselves to oppose force with force, in making the junction. The arrival of the train was the justification of all the efforts that had been made and the risks that had been taken. The fight was for the location and ownership of the commercial metropolis of a great region. It was a long and wearisome one—at times a heart-sickening and hopeless one—but the arrival of the locomotive was the inevitable sign of victory for the town of Edmonton and the interests which it embodies and represents.

It was passing strange that an event of such importance should have taken place so quietly. Few if any citizens went across the river to see the train or take passage on its first run, and still fewer were at the station to meet it on arrival. When the smoke of the locomotive was seen coming down the Mill Creek Valley there was a rush of people to the brow of the hill, who carelessly watched the train in its progress to and across the bridge. There was no demonstration of any kind.

The reason was that few of the crowd looking on had any idea or appreciation of the difficulties which had been overcome. The fight had been so long that most of those who were in it at the beginning were out of it before the end. And for the remainder it had been very, very long and wearisome. They had never had any doubt of ultimately winning, but they had become so used to disappointment that another added to the already long list would not have surprised them—any more than it would have shaken their faith, or stopped their efforts.

The Edmonton station is built with in a few hundred yards of the old Hudson's Bay fort, and overlooks the ground where the Blackfoot Indians, from the Bow and even the Missouri used to camp a hundred years ago when they came to trade with the ancient and honorable company of merchant adventurers trading into Hudson's Bay. The surroundings lack nothing in scenic beauty or historic interest.

Shortly after reaching the station the train took on a number of those who were waiting for it and gave them a short run across the bridge and back again to the station. This ride was largely taken advantage of by the school children, and highly appreciated by them. The train did not go back to Strathcona that night.

On Tuesday the locomotive pulled out at an early hour with one flat car and Mr. Pace and his gang spent the day in improving the track. A big stove was put in the station and telephone connection ordered.

The four children of Mr. and Mrs. N. M. Maclean of Regina died from diphtheria during two weeks.

## McLEOD-WILLS.

The home of Mr. and Mrs. Wm. Deyl, Jasper avenue, was the scene of a very interesting event on Wednesday evening, when their daughter, Susie, was united in marriage to Alfred F. McLeod, of the Edmonton Clothing Co's employ.

At 8 o'clock the wedding march was played by Mrs. W. Clark, while the contracting parties took their places before the clergyman, Rev. A. McDonald, pastor of the Baptist church. The groom was assisted by Mr. Maurice McDermott, and Miss May Montgomery was bridesmaid. The bride was accompanied by her step-father, Wm. Deyl. She looked charming in a gown of white organdie, trimmed with lace. The bridesmaid was also attired in white organdie. The ceremony was performed in the presence of a large number of guests.

After the bride and groom had received the congratulations of the friends, all repaired to the dining room where the wedding breakfast was partaken of. After justice had been done the good things provided for the feast to the bride and groom was proposed by the groomsmen. The groom responded. Mr. J. Huff, uncle of the groom, also proposed a toast to the happy couple, and Messrs. Sigler, Montgomery, Rev. McDonald, and Mrs. W. A. Deyl spoke in reply. The groom also responded to a toast from the happy couple. He has been a prominent member and active player for several years.

The guests present were: Mr. and Mrs. F. E. Maroney, Mr. and Mrs. J. H. Montgomery, Mr. and Mrs. H. Sigler, Mr. and Mrs. C. B. Beals, Mr. and Mrs. J. W. Huff, Mr. and Mrs. Rev. A. McDonald, Mr. and Mrs. H. N. Dodge, Mr. and Mrs. James Leander, Mrs. F. J. McLeod, Mrs. W. A. Deyl, Mr. and Mrs. J. Young, A. Berg, A. Elmer, G. Walker, E. Protherow, L. Umbach, I. Kluge, B. Miller, Mr. Montgomery, Messrs. Burke, Hamilton, Holloway, Wilson, Gilmour, Sibbald, McDougall, Helliwell, Bishopric, Killo, Campbell, Aikie, Veruip, Benjamin, Lumphugh, Jackson, McDermott and Greenwood.

The bride was the recipient of many handsome and valuable presents, including a set of beautiful furs from the groom, a large upholstered chair from the Edmonton Clothing Co., and a silver tea service from the hockey club. After an enjoyable evening the happy couple left for their new home on Elizabeth street, accompanied by the best wishes of their many friends.

## SUPREME COURT.

On Monday the case of Wm. Hensel, charged with assaulting T. P. Cairney with intent to disgrace, was disposed of. Evidence was brought by the defendant to show that he was subjected to fits, and that the offence was committed while suffering from one of these fits. The case lasted nearly two days and judgment was reserved till the following day, when the prisoner was acquitted.

The Russian church case was then continued and is occupying the attention of the court at the present.

## TEA AND BAZAAR.

A very successful tea and bazaar was held last evening in the basement of the Presbyterian church by the ladies aid society. The conveniences of the basement arrangements for such affairs were very clearly demonstrated. There was a large attendance, but no crowd. Ladies' gowns, fancy work, were for sale, and a fish pond gave delight to numerous little ones. After tea had been served the Edmonton orchestra played several selections. The orchestra comprises, Mr. Gruner, Miss Webster and Mr. Jones, violins, Mr. Barford piano and Mr. Boddy, bassoon. Mr. Stutchbury sang "The Hundred Pipers" most acceptably, and as an encore, "Father O'Flynn." He also sang, "Rocked in the Cradle of the Deep." A handsome sum was realized from the entertainment.

## PUBLIC HOSPITAL.

The quarterly meeting of the Edmonton Public Hospital board of directors for the months of July, August and September, was held in the office of J. M. Closson, Monday evening.

The financial report for the quarter shows:  
Hospital earnings, \$11,162.25  
Collections, 504.50  
Club subscriptions, 6.00  
Territorial grant, 482.50

Paid by the Woman's Hospital Aid society on account of hospital debt, 550.00

A communication was read from the town asking if the hospital would undertake to maintain a separate isolation hospital. A reply was sent that the hospital was unable to bear the expense but if the town would build and equip an isolation hospital they would consider the supplying of nurses from their staff.

The following resolutions were passed:

"That owing to the fact that one half of the earnings of the hospital cannot be collected from the patients, the superintendent be instructed not to admit any patients until a deposit on account has been made and arrangements made for a weekly settlement thereafter."

"That the 9th of November, being the anniversary of the King's birthday, notice be sent to the churches asking them to set the day apart as Hospital Sunday, the collection of the day to be given in support of the hospital."

The visiting directors appointed for the quarter ending Dec. 31, were W. S. Welsh, J. M. Douglas, Strathcona, and G. H. Graydon, Edmonton.

## THOROUGHBREED STOCK.

The Dominion Breeders' Association is arranging to ship thoroughbred horses, cattle, sheep, hogs, or poultry to this point under the arrangement made some years ago between the government and the C. P. R. for a \$5 freight rate on thoroughbred cattle and horses, and \$2.50 on sheep and hogs. D. C. Robertson is the Edmonton agent, who will receive orders and attend to the delivery of the stock. The financial arrangements are made through the Bank of Commerce.

## THE C & E STILL OBSTRUCTING.

Mayor Short received the following telegram on Thursday morning from B. Hanna, superintendent of the C. N. R., Winnipeg. The telegram is dated the 22nd.

"Am now engaged with Calgary & Edmonton people endeavoring to make agreement to permit us to run for Strathcona for passengers and freight business. Will wire later."

## YOUNG MEN'S INSTITUTE.

At the meeting of the debating society of the Young Men's Institute last night, Messrs. Ed. Sibbald and Greenwood advocated "Public Ownership as opposed to Private Ownership of Public Franchises," but Private Ownership supported by Messrs. Killen and Halliwell gained the vote of the majority of those present.

Messrs. Gilbert and Griesbach and Rev. H. A. Gray, who occupied the chair, also spoke.  
Suggestions for new municipal reforms are to be brought forward at next meeting.

# There's A Reason

Why we are able to give better satisfaction in boots and shoes than can be got elsewhere.

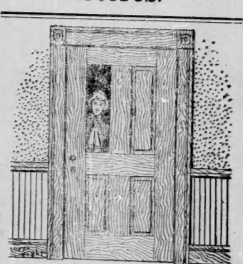

The Hudson's Bay Company's purchases in shoes are so extensive that it pays to put the purchasing into the hands of a thorough expert—a man who knows shoes as few men in Canada know them.

Then our shoes are bought solely on their merits, and not on a name created by clever advertising. We assume that it is wear, style, and comfort, and not advertising, that our customers want to pay for. We buy the "Duchess Quality" or the "Countess Shoe," or other expensively advertised shoes, only when these brands are at the head of their class, judged solely on their merits. Every shoe purchased is a thoroughly good shoe, and generally speaking, a rather better shoe than the average retailer can buy at the same price.

Knowing that our shoes are absolutely the best that can be sold at the various prices at which we offer them, we have no hesitation about offering them to the public under positive guarantee. The brand of the Hudson's Bay Company on a pair of shoes is absolute protection to the purchaser—satisfaction, or your money back; and this without additional cost to the purchaser.

We have just opened up 37 cases of shoes, and our stock is very complete, and we can suit anybody with a shoe that will give satisfaction (money back if it doesn't) at a price which will please.
